Contents

1	Foreword	1
2	Useful Shortcuts	2
2.1	Build solution	2
2.2	Exit any program*	2
2.3	Redo*	2
2.4	Run/execute program	2
2.5	Save*	2
2.6	Save All*	2
2.7	Undo*	3

1 Foreword

This document contains useful keyboard shortcuts for different operating systems and IDEs. We use the following symbols:

Symbol	Common Name
⇧	Shift
⌥	Option (or Alt)
⌘	Command (or Cmd)
↵	(Carriage) Return

The sections labeled with the star symbol (“*”) work generally everywhere, beyond your IDE.

More advanced shortcuts may be available to your particular IDE:

- For Visual Studio for Windows, refer to the documentation¹,
- For Visual Studio for MacOS, refer to the documentation²
- For Rider, refer to the documentation³,
- For MonoDevelop, you can refer to this cheatsheet⁴ or directly access the key binding panel⁵.
